**Frontend:** HTML | CSS | Bootstrap | Tailwind CSS | Bootstrap | Ant Design | Shadcn/ui | Material-ui | Daisy UI | SASS | React | Redux | Firebase | Next JS | Next UI | Next Auth | Framer Motion | Payment gateway | React Hook Form | Sonner

**Backend:** Node JS | Express JS | Payment gateway | JWT | ZOD | CORS | Rest API

**Database:** MongoDB | Mongoose

**Tools:** VS Code | Git | GitHub | Figma | Vercel | Chrome Dev Tool | Redux Dev Tool | Firebase Hosting | Netlify

## PROJECTS

### 1.BIKEIST-MERN STACK & Redux

[Live Site](#) | [GitHub\(Client\)](#) | [GitHub\(Server\)](#)

Bikeist is an advanced bike rental platform offering features like dashboards, rental history, gamified discounts, Stripe payments, and bike comparisons. Built with React, Redux, and Tailwind CSS, it ensures a seamless experience for users and admins.

#### FEATURES

- Rent bikes easily with an intuitive interface, secure payment options, and a smooth booking experience for users.
- Manage rental history, track paid/unpaid rentals, and update profile details effortlessly through the user dashboard.
- Admins can manage products by adding, updating, and deleting items, ensuring seamless product inventory control.

**Technologies:** TypeScript | React | Redux | Tailwind | Node JS | Express JS | Mongoose | JWT | ZOD

### 2.ESHOP-SPOTS-MERN STACK

[Live Site](#) | [GitHub\(Client\)](#) | [GitHub\(Server\)](#)

Eshop-Spots is a modern furniture e-commerce platform offering seamless browsing, cart, wishlist management, secure Stripe payments, and user dashboards. Its advanced designs and admin tools ensure a smooth shopping experience for users and administrators.

#### FEATURES

- Users can add furniture to their cart or wishlist for future purchases and update profile details effortlessly.
- Efficiently track and manage past orders from the user dashboard for a seamless experience.
- Admins can add, update, and delete furniture products through the product management interface.

**Technologies:** React | Firebase | Axios | Tailwind | Node JS | Express JS | Mongoose | JWT

### 3.CAREPRESS- Next JS & MERN STACK

[Live Site](#) | [GitHub\(Client\)](#) | [GitHub\(Server\)](#)

Carepress is a pet care platform featuring practical tips and heartwarming stories. Users can browse, create, and engage with content through upvotes and comments, access premium posts via Stripe, and manage profiles with a responsive, modern design.

#### FEATURES

- Engage with upvotes, comments, rich text editing, and search filters for easy content creation and discovery.
- Enabled secure Stripe payments for exclusive and premium content.
- Admin can manage posts, view followers, track content interactions, and delete or block user data.

**Technologies:** Typescript | React | Next Js | Next UI | PDF JS | Tailwind | Node JS | Express JS | Mongoose

## EDUCATION & COURSES

**BSS in Social Work**

**Complete Web Development**

**Next Level Web Development**

Rajshahi College (2019-2025)  
Programming Hero (Jun 2022 - Jan 2023) [Certificate](#)  
Programming Hero (Jun 2024 - Oct 2024)

## LANGUAGE

**Bangla** - Native

**Hindi** - Comfortable

**English** - Comfortable
